

PRESS RELEASE – New Managing Director for epay Australia

SYDNEY, Australia – January 18, 2011 – epay Australia announces Victor Guerrero as epay Australia’s Managing Director.

Victor brings us a wealth of experience in the management of high growth businesses, retail merchandising execution, and strategic vision. Having worked for local Australian and US start up companies in the Telco and Retail space, his experiences will strengthen our value delivery to our customers.

Victor has held senior and management roles at Netcomm Ltd, Adobe, Sybari and Chilli Internet amongst others, and is well placed to leverage contacts and resources across the region.

epay Australia is a company with great opportunities for growth and through Victor’s vast experience over the last 20 years, he has been brought on with confidence, to bring change and expand on the services epay currently provide today.

In 2010, epay experienced major successes in the pursuit of new key market opportunities. Two major targeted growth areas were Transport and Digital Content. Through hard work and perseverance, epay is pleased to be a member of the Pearl Consortium, which was awarded the smartcard ticketing contract by the New South Wales Government’s Public Transport Ticketing Corporation. epay has also successfully partnered with major digital content providers such as Microsoft and Sony ensuring their products were easily available to their clients across Australia through epay’s retail partners.

Whilst epay continue to focus on driving new business, we will also focus on improving the services we currently offer. Victor Guerrero is committed to the improvement and expansion of our business and is well equipped to ensure that these changes benefit all partners on our network.

epay, a Division of Euronet Worldwide, Inc. (NASDAQ: EEFY), is a global business with a retail network of approximately 227,000 locations across a number of international markets including the UK, Germany, Spain, Italy, Australia, New Zealand, USA, Poland, Romania, Austria, Switzerland and Ireland. epay enables service providers to deliver electronic payment products and services to consumers through an extensive worldwide retail network. epay’s proprietary payment technology is backed by a cash collection service that manages the payment of funds back to the service providers and a range of marketing solutions to assist both the retailer and service provider to maximize their sales opportunities.
